

About the project

Nowadays our students expose too many stimulus and we realize that our students don't have enough information about their own culture and history. We think that we have lots of values and people in our country that should not be forgotten.

Furthermore, because of the fact that this semester the second unit of our curriculum draws attention to the heroes who are important for us so we want to raise awareness of our students and teachers about this issue.

For this purpose, we think it will be useful to integrate this project into curriculum.

In accordance with this purpose, we have scheduled 6 weeks activity plan and decided on themes for each week. For each theme we determined people who became hero for us. Final week of the project has been planned as an evaluation week.

In conclusion, the aim of this project is to raise awareness about our culture and other cultures and also to introduce important figures to students so that they can take them as a model and imagine a better future.

AIMS

In this project, we aimed the pupils will develop their cognitive, emotional, physical, social, linguistic, cultural and visual skills by doing presentations, researches, acting dramas, watching movies, doing sports, having a song contest ,a poem audition, writing letters, preparing posters, decorating the classroom and the bulletin boards in the classrooms.

With the help of these activities, pupils are going to discover their creativity and productivity. They're going to learn the curriculum with fun and by learning heroes they are going to have a good model in their minds and lives. They will be able to communicate to the peers from another country so they are going to have a cultural interaction. Speaking in another language and communicating with other people they're going to improve their self-confidence. Thanks to this communication they will have got the opportunity to use their foreign language. They are going to develop their linguistic skills using the portal actively.

WORK PROCESS

Every school organizes its team consisting of their teachers and students. Teachers choose themes for each week. For each theme they choose their heroes. The last week's theme of our project will be the evaluation. Students and teacher are going to evaluate the project. According to the Schedule, teachers create their own student groups and distribute the duties of students.

During the Project, each of the teachers upload their works like pictures, videos, powerpoint presentations, posters etc. on to the eTwinning portal every week.

WEEKS DATE THEME-ACTIVITIES

1st week-18th March 2019 History-Drama

2nd week-25th March 2019 Sport-Door decorations, Posters, Panels

3rd week-1st April 2019 Literature-Poem performance

4th week-8th April 2019 Music-Music competition

5th week-15th April 2019 Cinema-Watching movies

6th week-22nd April 2019 School Holiday-Overview of project activities

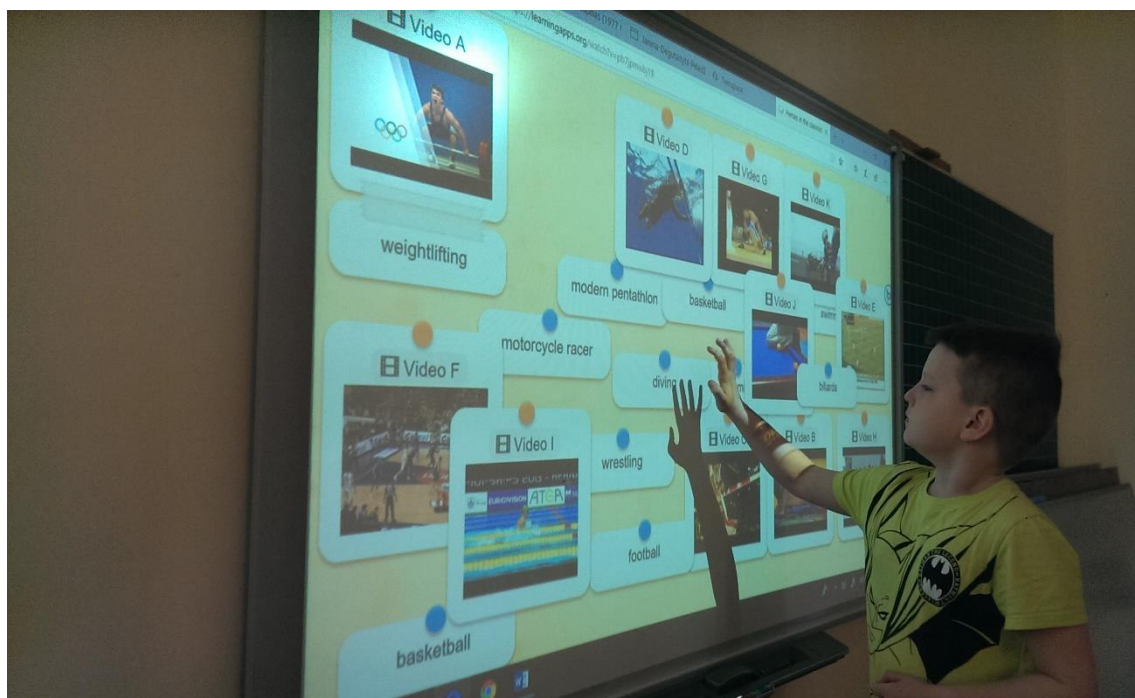

7th week-29th April 2019 Which hero would you like to be?-Letters

8th week-6th May 2019 Evaluation-Exhibition, Questionnaire, CD, Album, Magazine

EXPECTED RESULTS

Firstly We are going to prepare surveys to our students and teachers to evaluate projects then We are going to prepare an e-Twinning CD with all videos after that we are going to prepare e-Twinning album with all photos. We are going to publish an e-Twinning magazine with all products. We are going to fill our school's boards with our products and make an e-Twinning exhibition. Finally we are going to share all this process with press organ like our school web site, local magazine and etc... By means of all these products everybody is going to be aware of our project.
