

## About the project

Using ICT is becoming increasingly important and helps students acquire valuable skills. It is no less important to know and respect the traditions of our country that help nurture our identity. With this project, we are going to combine these two important areas of life - ethnic culture and ICT.

### AIMS

1. Help students get to know and appreciate the ethnic culture of their nation while improving their digital competence.
2. To motivate students to respect their country and be tolerant of other cultures.
3. To test some different computer programs adapted for drawing and share it between partners.
4. To improve communication skills in a foreign language.

### WORK PROCESS

April - May:

Partners presentations. local and cultural important informations (gastronomy, monuments/symbols, important facts of the partners's history) through PowerPoint presentations and videos.

Spring, Summer, Autumn and Winter celebrations through pictures drawn in different computers softwares and sent by email.

First video conference between the two partners with pre-arranged questions (Zoom).

May - June:

Publishing the pictures and documents on Twinspace.

Publishing an ebook about Lithuanian and Portugal customs and traditions.

Shared on the schools' social media (if there's no pictures from the students).

Second video conference between the two partners with pre-arranged questions.

Project evaluation through a Google form questionnaire.

### EXPECTED RESULTS

Students will get acquainted with their own and partner country's traditions.

Students will improve their skills by working with drawing programs by collaborating and sharing experiences, they can learn from each other.

Improve Competence in Initiative and Creativity, Digital and Communication.

Create e-book about Lithuanian and Portugal customs and traditions.
